**Aehr Test Systems to Participate in CEO Investor Summit 2016
in San Francisco on July 13**

*Accredited investor and publishing research analyst event to be held concurrently with
SEMICON West and Intersolar 2016 in San Francisco*

Fremont, CA (July 12, 2016) – Aehr Test Systems (Nasdaq: AEHR), a worldwide supplier of semiconductor test and burn-in equipment, today announced that Gayn Erickson, President and CEO, and Ken Spink, CFO, will participate in the Eighth Annual CEO Investor Summit taking place July 13, 2016 at the W Hotel in San Francisco, California.

“We look forward to discussing our next generation FOX-P family of wafer level test and burn-in products, which we expect to drive revenue growth for Aehr Test in the coming fiscal year and for years to come,” said Erickson. “This includes the introduction of our FOX-XP system, our next generation multi-wafer test system for high volume production and early failure rate test, that we believe will significantly expand our served available market in calendar 2016 and beyond.”

About The Eighth Annual CEO Summit

The CEO Summit is an accredited investor and publishing research analyst event that is held concurrently with SEMICON West and Intersolar 2016 in San Francisco. The event is hosted by executive management from participating companies and will feature a “round-robin” format consisting of small group meetings, each 30 minutes in duration. The CEO Investor Summit is by invitation only and is open to accredited investors and publishing research analysts. While held concurrently with SEMICON West and Intersolar 2016, the event is not affiliated with the show.

RSVP Contacts for Eighth Annual CEO Summit 2016

About Aehr Test Systems

Headquartered in Fremont, California, Aehr Test Systems is a worldwide provider of test systems for burning-in and testing logic and memory integrated circuits and has an installed

base of more than 2,500 systems worldwide. Increased quality and reliability needs of the Automotive and Mobility integrated circuit markets are driving additional test requirements, capacity needs and opportunities for Aehr Test products in package and wafer level test. Aehr Test has developed and introduced several innovative products, including the ABTS™ and FOX families of test and burn-in systems and the DiePak® carrier. The ABTS system is used in production and qualification testing of packaged parts for both lower-power and higher-power logic as well as all common types of memory devices. The FOX system is a full wafer contact test and burn-in system used for burn-in and functional test of complex devices, such as leading-edge memories, digital signal processors, microprocessors, microcontrollers and systems-on-a-chip. The DiePak carrier is a reusable, temporary package that enables IC manufacturers to perform cost-effective final test and burn-in of bare die. For more information, please visit the Company's website at www.aehr.com.

Safe Harbor Statement

This press release contains certain forward-looking statements based on current expectations, forecasts and assumptions that involve risks and uncertainties. These statements are based on information available to Aehr Test as of the date hereof and actual results could differ materially from those stated or implied due to risks and uncertainties. Forward-looking statements include statements regarding Aehr Test's expectations, beliefs, intentions or strategies regarding the future including statements regarding future market opportunities and conditions, expected customer orders or commitments and future operating results. The risks and uncertainties that could cause Aehr Test's results to differ materially from those expressed or implied by such forward-looking statements include, without limitation, general market conditions, customer demand and acceptance of Aehr Test's products and Aehr Test's ability to execute on its business strategy. See Aehr Test's recent 10-K, 10-Q and other reports from time to time filed with the Securities and Exchange Commission for a more detailed description of the risks facing Aehr Test's business. Aehr Test disclaims any obligation to update information contained in any forward-looking statement to reflect events or circumstances occurring after the date of this press release.
