

FOX WaferPak Contactor

Single Touchdown Full-Wafer Test & Burn-in

PRODUCT BENEFITS

- Delivers FOX system resources to the wafer enabling single touchdown test and burn-in
 - May be designed for up to 300 mm wafer sizes
 - ◆ Production proven with > 50,000 contacts per wafer
 - Pad Metallurgy: Al, Cu, Au or solder balls
 - Temperature range: Ambient to 150° C
- Supports up to 2,048 I/O and DPS channels with remote voltage and ground sense per pin
 - ♦ Handles up to 4 amps per contact
- Handles up to 2 kW of power dissipation
- Enables high volume full wafer production test and burn-in with one touchdown
- Field repairable contactor
